

D132B Polarity Reversing Module

www.boschsecurity.com

BOSCH

Invented for life

The D132B module reverses polarity on the smoke detector loop during alarm. It can be used to activate the sounder in smoke detectors with the sounder feature. It works with both two- and four-wire 24 V circuits and with Class A or Class B Initiating circuits.

Certifications and approvals

Region	Certification	
USA	UL	UTOU: Control Units and Accessories - Household System Type (UL985)
